

FEDERATION OF INDIAN PILOTS

FIP/DGCA/26-05

10 April 2026

**Mr Vir Vikram Yadav,
Director General,
DGCA, Opp Safdarjung Airport,
Sri Aurobindo Marg,
New Delhi-110003**

Respected Sir,

1. Heartiest congratulations from Federation of Indian Pilots (**FIP**), on assuming the charge as the new Director General of Civil Aviation. Under your able guidance and fresh young ideas, we are sure that Civil Aviation will once again see a remarkable change for the good and maintain good safety standards.

2. To introduce ourselves, Federation of Indian Pilots is a pan India body comprising of commercial pilots who came together in 1996, to take up various academic, scientific, technical and common interest issues. Its primary aim is to promote the pursuit of professional excellence and to highlight the strategic and vital role of the pilots' profession in the international arena at large and in India, in particular. Today this Federation has a membership of more than 6000 commercial pilots from airlines to corporates including rotary wing pilots. Presently, in Aviation there is no role played by any pilot's body in formulating regulations, civil aviation policies and in any aircraft accident/incident investigations. FIP has a vast experience in the available membership which can effectively contribute towards building up of a new era of Civil Aviation in the country. We as a body would like to be involved in any way which can benefit the aviation in the country.

3. Currently, as we all are aware, that the aviation sector has been affected badly by the US/Israel-Iran war and closure of many airspaces which is a big challenge for the airlines operating from India.

We, at Federation of Indian Pilots, once again wish you all the very best in all your future endeavours to make INDIA "the best" in the AVIATION.

With warm regards,

**(Capt. CS Randhawa)
President FIP**
